

K-love radio has been an inspiration to me on a daily basis for years. This radio station is part of my daily routine as I listen to it daily from 5:30 a.m. until 10:00 p.m. This station has helped me to cope this past year with the suicide of my fiancé, my dog's death, and two surgeries. I am encouraged and uplifted by this station and I really don't know how I would cope without it. I have been depressed the past two days because apparently the station in my area has been off the air. K-love provides hope and love to a dying world. Their motto of "positive and encouraging" is VERY true!! Please don't take K-love off the air. You will be doing a lot of people a great disservice if you do.
